PREVENTITIVE CARE

BENEFITS 2025

At Profmed, your health is our priority. That's why we offer a Preventative Care Benefit, designed to help detect high-risk conditions early on, giving you the best chance for a positive outcome. By detecting potential health issues early, we can reduce complications and improve your overall wellbeing.

This benefit covers specific tests and screenings, such as pathology, radiology, and vaccinations, ensuring you have access to essential preventative care. For your peace of mind, all necessary diagnostic procedures and tests will be taken care of according to the risk benefit guidelines, helping you stay on top of your health with ease and confidence.

These benefits are subject to ratification by the Council for Medical Schemes. The published Schedule is subject to the rules approved by the Board of Trustees and in the event of a dispute the approved rules of the Scheme will prevail.

SAVVY & PREMIUM

Members will be required to make use of Designated Service Providers (DSPs) to avoid co-payments on services rendered for the relevant benefits, subject to PMB legislation. The preventative care DSP for pathology is Ampath, Lancet Laboratories and Pathcare.
